

Eukaryotic Cell Model

Before beginning, why are we doing this activity? What are you supposed to be learning?

1. Identify each structure by clicking on it in the online model (use the word bank below);
2. Circle those structures that are also found in the prokaryotic cell model.

Word Bank

cell membrane, cell wall, chloroplast, cytoplasm, cytoskeleton, golgi, lysosome, mitochondrion, nucleus, ribosomes, rough ER, smooth ER, vacuole
