

**SNAPSHOT – Review Cell Membrane Structure**

Name \_\_\_\_\_

1. Label the diagram of the **fluid mosaic model** of the **cell membrane** below using the following word bank:

*cholesterol, extracellular space (outside the cell), fatty acid tail, intracellular space (inside the cell),  
lipid bilayer, phosphate head, phospholipid, transport protein*

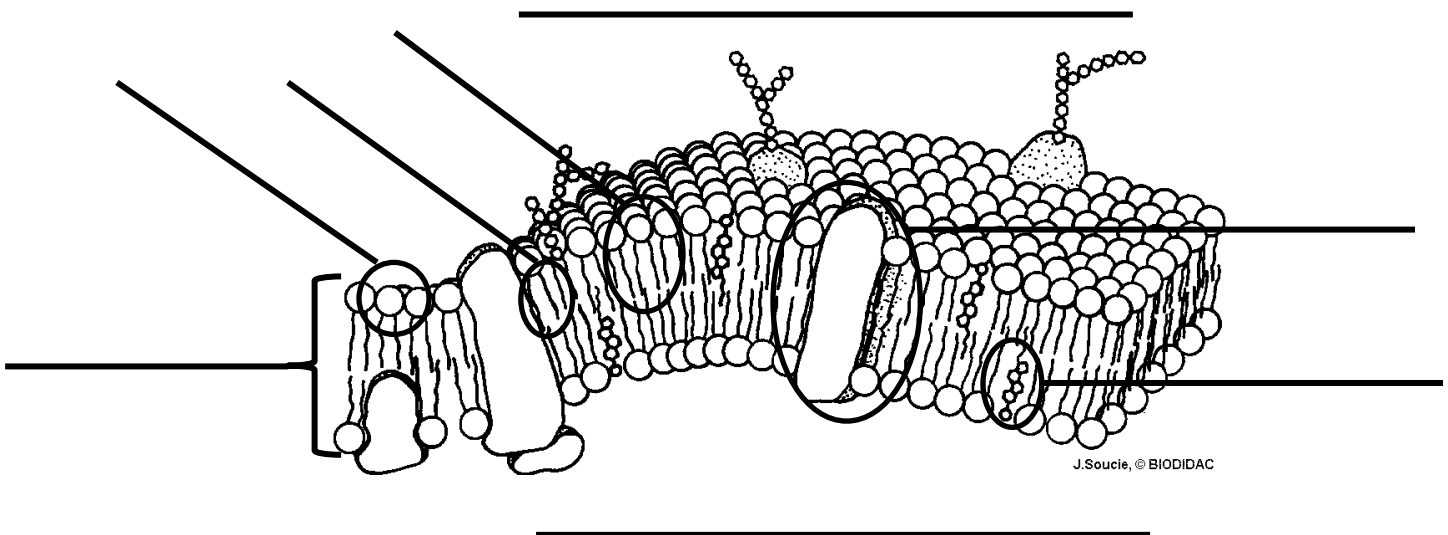

2. Explain (on the back) why the phospholipids are arranged in a lipid bilayer:
