

The Vomit Lab

COLLECTING AND PRESENTING DATA

Summarize the observations your group made from your personal investigation.

Make a data table to organize the class' data for this investigation.

ANALYZING AND INTERPRETING RESULTS

Conclusion – Claim, Evidence, and Reasoning

First, organize the essential parts of your conclusion into the graphic organizer below:

Claim (Did John and Jane eat the same food?)	
Evidence (What <i>results</i> support your claim?)	Reasoning (<i>Explain why</i> is your evidence supports your claim?)
