

Water Property Notes

Station	Property	Description or Definition	Why It's Important to Life
1	Cohesion		
1	Adhesion		
1	Surface Tension		
2	Universal Solvent		
3	Density of Ice		
4	Capillary Action		
5	Heat Capacity		

pH Scale – Label each range indicated above as acid, base, or neutral. List at least three examples of each under the scale.

Polarity of the Water Molecule

Hydrogen Bonding
